After several years of being out of print and becoming a bit of a collectors item; TAKEN, the startling accounts of alien abduction as documented by the late Karla Turner, has been refreshed and reissued faithfully with the sole input and authorization from husband Elton Turner. With a new foreword written by the legendary Nick Pope who with 21 years of experience at the British Government's Ministry of Defence and an incredible history of research and broadcasting, puts it best that Taken is a real 'researcher's book'. This is the ultimate investigation of the paranormal links between humans and 'other worldly' beings.
