Cases and Materials on Patent Law (American Casebook Series) Martin Adelman, Randall R. Rader, John R. Thomas, Harold C. Wegner

The authors feel that students considering patent law for the first time should look forward to learning legal tenets as venerable as the Constitution itself yet as current as the latest development from the laboratory bench. This casebook is comparative and constantly refers to aspects of foreign patent systems. This is with the understanding that patent practitioners without an understanding of the international patent system place their clients at a significant disadvantage.
