Algorithmic Number Theory: 6th International Symposium, ANTS-VI, Burlington, VT, USA, June 13-18, 2004, Proceedings (Lecture Notes in Computer Science)

The sixth Algorithmic Number Theory Symposium was held at the University of Vermont, in Burlington, from 13–18 June 2004. The organization was a joint effort of number theorists from around the world. There were four invited talks at ANTS VI, by Dan Bernstein of the University of Illinois at Chicago, Kiran Kedlaya of MIT, Alice Silverberg of Ohio State University, and Mark Watkins of Pennsylvania State University. Thirty contributed talks were presented, and a poster session was held. This volume contains the written versions of the contributed talks and three of the four invited talks. (Not included is the talk by Dan Bernstein.) ANTS in Burlington is the sixth in a series that began with ANTS I in 1994 at Cornell University, Ithaca, New York, USA and continued at Université de Bordeaux I, Bordeaux, France (1996), Reed College, Portland, Oregon, USA (1998), the University of Leiden, Leiden, The Netherlands (2000), and the University of Sydney, Sydney, Australia (2002). The proceedings have been published as volumes 877, 1122, 1423, 1838, and 2369 of Springer-Verlag's Lecture Notes in Computer Science series. The organizers of the 2004 ANTS conference express their special gratitude and thanks to John Cannon and Joe Buhler for invaluable behind-the-scenes advice.

From reader reviews:

Bertha Davis:

What do you think about book? It is just for students since they are still students or this for all people in the world, what best subject for that? Just simply you can be answered for that question above. Every person has various personality and hobby for every other. Don't to be pushed someone or something that they don't would like do that. You must know how great along with important the book Algorithmic Number Theory: 6th International Symposium, ANTS-VI, Burlington, VT, USA, June 13-18, 2004, Proceedings (Lecture Notes in Computer Science). All type of book could you see on many options. You can look for the internet resources or other social media.

Buddy Stewart:

People live in this new time of lifestyle always try to and must have the free time or they will get great deal of stress from both day to day life and work. So , when we ask do people have spare time, we will say absolutely indeed. People is human not just a robot. Then we consult again, what kind of activity do you have when the spare time coming to a person of course your answer may unlimited right. Then do you ever try this one, reading books. It can be your alternative inside spending your spare time, the book you have read is usually Algorithmic Number Theory: 6th International Symposium, ANTS-VI, Burlington, VT, USA, June 13-18, 2004, Proceedings (Lecture Notes in Computer Science).

Warner Gomez:

You can spend your free time to see this book this guide. This Algorithmic Number Theory: 6th International Symposium, ANTS-VI, Burlington, VT, USA, June 13-18, 2004, Proceedings (Lecture Notes in Computer Science) is simple to create you can read it in the playground, in the beach, train in addition to soon. If you did not include much space to bring often the printed book, you can buy often the e-book. It is make you simpler to read it. You can save often the book in your smart phone. And so there are a lot of benefits that you will get when you buy this book.

Jeannie Brenner:

Many people spending their period by playing outside together with friends, fun activity along with family or just watching TV the whole day. You can have new activity to pay your whole day by reading through a book. Ugh, ya think reading a book really can hard because you have to use the book everywhere? It alright you can have the e-book, getting everywhere you want in your Smart phone. Like Algorithmic Number Theory: 6th International Symposium, ANTS-VI, Burlington, VT, USA, June 13-18, 2004, Proceedings (Lecture Notes in Computer Science) which is having the e-book version. So , try out this book? Let's view.
