## Learning Classifier Systems: 5th International Workshop, IWLCS 2002, Granada, Spain, September 7-8, 2002, Revised Papers (Lecture Notes in Computer Science / Lecture Notes in Artificial Intelligence)

The 5th International Workshop on Learning Classifier Systems (IWLCS2002) was held September 7–8, 2002, in Granada, Spain, during the 7th International Conference on Parallel Problem Solving from Nature (PPSN VII). We have included in this volume revised and extended versions of the papers presented at the workshop. In the first paper, Browne introduces a new model of learning classifier system, iLCS, and tests it on the Wisconsin Breast Cancer classification problem. Dixon et al. present an algorithm for reducing the solutions evolved by the classifier system XCS, so as to produce a small set of readily understandable rules. Enee and Barbaroux take a close look at Pittsburgh-style classifier systems, focusing on the multi-agent problem known as El-farol. Holmes and Bilker investigate the effect that various types of missing data have on the classification performance of learning classifier systems. The two papers by Kovacs deal with an important theoretical issue in learning classifier systems: the use of accuracy-based fitness as opposed to the more traditional strength-based fitness. In the first paper, Kovacs introduces a strength-based version of XCS, called SB-XCS. The original XCS and the new SB-XCS are compared in the second paper, where Kovacs discusses the different classes of solutions that XCS and SB-XCS tend to evolve.

**From reader reviews:**

**Anthony Hanna:**

Now a day individuals who Living in the era everywhere everything reachable by talk with the internet and the resources in it can be true or not need people to be aware of each information they get. How people have to be smart in getting any information nowadays? Of course the answer is reading a book. Examining a book can help folks out of this uncertainty Information especially this Learning Classifier Systems: 5th International Workshop, IWLCS 2002, Granada, Spain, September 7-8, 2002, Revised Papers (Lecture Notes in Computer Science / Lecture Notes in Artificial Intelligence) book because this book offers you rich information and knowledge. Of course the details in this book hundred percent guarantees there is no doubt in it you know.

**Dan Flood:**

Reading a book can be one of a lot of task that everyone in the world loves. Do you like reading book therefore. There are a lot of reasons why people like it. First reading a e-book will give you a lot of new data. When you read a e-book you will get new information mainly because book is one of a number of ways to share the information or their idea. Second, studying a book will make an individual more imaginative. When you examining a book especially hype book the author will bring you to imagine the story how the personas do it anything. Third, it is possible to share your knowledge to other folks. When you read this Learning Classifier Systems: 5th International Workshop, IWLCS 2002, Granada, Spain, September 7-8, 2002, Revised Papers (Lecture Notes in Computer Science / Lecture Notes in Artificial Intelligence), you are able to tells your family, friends and also soon about yours reserve. Your knowledge can inspire others, make them reading a reserve.

**Scott Fisher:**

Reading a publication tends to be new life style in this particular era globalization. With examining you can get a lot of information that may give you benefit in your life. Together with book everyone in this world can share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their particular reader with their story or maybe their experience. Not only situation that share in the books. But also they write about the ability about something that you need instance. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors these days always try to improve their ability in writing, they also doing some study before they write on their book. One of them is this Learning Classifier Systems: 5th International Workshop, IWLCS 2002, Granada, Spain, September 7-8, 2002, Revised Papers (Lecture Notes in Computer Science / Lecture Notes in Artificial Intelligence).

**Jaime Friend:**

Many people spending their time frame by playing outside having friends, fun activity having family or just

watching TV the whole day. You can have new activity to invest your whole day by reading a book. Ugh, do you consider reading a book can definitely hard because you have to accept the book everywhere? It ok you can have the e-book, getting everywhere you want in your Touch screen phone. Like Learning Classifier Systems: 5th International Workshop, IWLCS 2002, Granada, Spain, September 7-8, 2002, Revised Papers (Lecture Notes in Computer Science / Lecture Notes in Artificial Intelligence) which is keeping the e-book version. So , try out this book? Let's view.
