The Council for Economic Education envisions a world in which people are empowered through economic and financial literacy to make informed and responsible choices throughout their lives as consumers, savers, investors, workers, citizens, and participants in our global economy.

Some of the areas in K-12 education we publish in include:

- Establishing and building credit
- Managing personal finances
- Understanding economics on a local, national, and global level
- Using economics in other subject areas: Social Studies, Geography, History, etc.

Robert Poulin:

As a student exactly feel bored for you to reading. If their teacher questioned them to go to the library as well as to make summary for some e-book, they are complained. Just minor students that has reading's heart or real their passion. They just do what the instructor want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that looking at is not important, boring and also can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Mathematics & Economics: Connections for Life, Grades 9-12

(Mathematics and Economics) can make you feel more interested to read.
