Mobility Data

Mobility Data

Mobility of people and goods is essential in the global economy. The ability to track the routes and patterns associated with this mobility offers unprecedented opportunities for developing new, smarter applications in different domains. Much of the current research is devoted to developing concepts, models, and tools to comprehend mobility data and make it manageable for these applications. This book surveys the myriad facets of mobility data, from spatio-temporal data modeling, to data aggregation and warehousing, to data analysis, with a specific focus on monitoring people in motion (drivers, airplane passengers, crowds, and even animals in the wild). Written by a renowned group of worldwide experts, it presents a consistent framework that facilitates understanding of all these different facets, from basic definitions to state-of-the-art concepts and techniques, offering both researchers and professionals a thorough understanding of the applications and opportunities made possible by the development of mobility data.

Christopher Wilkerson:

As a scholar exactly feel bored in order to reading. If their teacher requested them to go to the library in order to make summary for some guide, they are complained. Just small students that has reading's spirit or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to generally there but nothing reading really. Any students feel that reading is not important, boring as well as can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Mobility Data can make you really feel more interested to read.
