A Vector Space Approach to Geometry (Dover Books on Mathematics)

Melvin Hausner, Mathematics

A Vector Space Approach to Geometry (Dover Books on Mathematics) Melvin Hausner, Mathematics The effects of geometry and linear algebra on each other receive close attention in this examination of geometry's correlation with other branches of math and science. In-depth discussions include a review of systematic geometric motivations in vector space theory and matrix theory; the use of the center of mass in geometry, with an introduction to barycentric coordinates; axiomatic development of determinants in a chapter dealing with area and volume; and a careful consideration of the particle problem. 1965 edition.
