Planning guide for sites and solutions for Microsoft SharePoint Server 2010, Part 1

Microsoft Office System and Servers Team

Planning guide for sites and solutions for Microsoft SharePoint Server 2010, Part 1 Microsoft Office System and Servers Team

This book provides information about planning for deploying Microsoft SharePoint Server 2010. Subjects include site security, governance, and enterprise content management. The audiences for this book are business application specialists, line-of-business specialists, information architects, IT generalists, program managers, and infrastructure specialists who are planning a solution based on SharePoint Server 2010. This book is part of a set of four planning guides that provide comprehensive IT planning information for SharePoint Server. For further information about planning for site and solutions created by using SharePoint Server, see Planning guide for sites and solutions for Microsoft SharePoint Server 2010, part 2. Subjects in Part 2 include web content management, site creation, business intelligence, business data, and enterprise search. For information about planning the architecture of a SharePoint Server 2010 deployment, see Planning guide for server farms and environments for Microsoft SharePoint Server 2010. For information about planning for capacity and performance in SharePoint Server 2010, see Capacity planning for Microsoft SharePoint Server 2010. The content in this book is a copy of selected content in the SharePoint Server 2010 technical library as of the publication date. For the most current content, see the technical library on the Web.

From reader reviews:

Brett Baker:

Spent a free time to be fun activity to accomplish! A lot of people spent their sparetime with their family, or their own friends. Usually they doing activity like watching television, going to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Will you something different to fill your own personal free time/ holiday? May be reading a book is usually option to fill your no cost time/ holiday. The first thing you ask may be what kinds of publication that you should read. If you want to consider look for book, may be the book untitled Planning guide for sites and solutions for Microsoft SharePoint Server 2010, Part 1 can be great book to read. May be it might be best activity to you.

Daniel Buch:

Playing with family in a park, coming to see the marine world or hanging out with friends is thing that usually you might have done when you have spare time, after that why you don't try thing that really opposite from that. I activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition info. Even you love Planning guide for sites and solutions for Microsoft SharePoint Server 2010, Part 1, it is possible to enjoy both. It is good combination right, you still want to miss it? What kind of hang-out type is it? Oh occur its mind hangout fellas. What? Still don't have it, oh come on its named reading friends.

Jennifer Ruiz:

In this age globalization it is important to someone to acquire information. The information will make anyone to understand the condition of the world. The fitness of the world makes the information better to share. You can find a lot of sources to get information example: internet, newspapers, book, and soon. You can see that now, a lot of publisher that print many kinds of book. The book that recommended to you is Planning guide for sites and solutions for Microsoft SharePoint Server 2010, Part 1 this e-book consist a lot of the information in the condition of this world now. This book was represented just how can the world has grown up. The vocabulary styles that writer require to explain it is easy to understand. Typically the writer made some research when he makes this book. Honestly, that is why this book acceptable all of you.
