DiagnosisPro 6.0 is the most comprehensive, reliable and easy-to-use diagnostic tool available today. With this program's powerful search engine, healthcare professionals can quickly generate a differential diagnosis from practically anywhere: in the office, at home, at the hospital, or even while on the run with the help of handheld devices like Pocket PCs. This program was designed to quickly remind busy medical practitioners of all of the possibilities and conditions which they might have forgotten or overlooked -- especially in complicated or rare cases that fall outside of their specialties. Updated regularly, the DiagnosisPro database has been compiled by reputable physicians over the past 30 years from more than 90 prestigious medical resources. By simply entering one or more findings or conditions of a patient, DiagnosisPro instantly generates a hierarchical list of diagnoses from its database of over 10,000 diseases, 25,000 findings, and 300,000 relationships. DiagnosisPro is now available for any handheld device using the Microsoft Pocket PC operating system (Windows CE, Pocket PC, Pocket PC 2002, or Pocket PC 2003 with an ARM processor). You may now purchase a combination of DiagnosisPro 6.0 CD-ROM for the Pocket PC Version plus a pre-installed DiagnosisPro database on a 64MB SD Card. This allows you an extra 40MB of free storage space on your Memory Card which can be used for other applications on your device. As a special offer, when you buy the Pocket PC Version plus a 64MB SD Card, you will also receive:

• A free Windows Version
• A free Online Version - Annual Subscription

More about DiagnosisPro: To generate a search for a differential diagnosis, you enter one or more findings such as signs, symptoms, lab values, patient's characteristics, the patient's occupation if a condition could be attributable to a job, travel location for regional diseases, or X-ray and EKG results. DiagnosisPro then provides a list of differential diagnoses. When you choose a disease or condition, you can evaluate it in a detailed outline format with the Disease Review feature. Each review includes clinical presentations, demographic information, abnormal lab values, pathophysiology, rule-outs, complications, treatments and much more. DiagnosisPro conveniently provides ICD-9 and CPT codes from its database of over 15,000 codes. DiagnosisPro 6.0 also includes a Disease Comparison feature -- a side-by-side comparison of the data for two conditions so you can easily discern the similarities and differences. DiagnosisPro is designed to make your practice safer, enhance the quality of care, reduce misdiagnosis and billing errors, and save time -- especially in diagnosing complicated cases. It is the ultimate differential diagnosis tool for a busy physician. Join thousands of satisfied customers around the world.
