Georg Wilhelm Friedrich Hegel

Hegel's Philosophy of Nature; ([Muirhead library of philosophy]) (v. 1) Georg Wilhelm Friedrich Hegel
The German idealist, Georg Wilhelm Hegel, was arguably one of the most important thinkers of the Nineteenth Century and his work is of continued significance today as philosophy begins a major reappraisal of Hegelian thought. Reprinted here are translations of three of his major works as they first appeared in the *Muirhead Library, Philosophy of Nature, Phenomenology of Mind and Science of Logic*. Also included is an original critique by John Niemeyer Findlay. This offers a reinterpretation of Hegel's idealism and his dialectical method and stresses their connection with many contemporary philosophical ideas and methods.
