Many of the verses in this book are republished, with considerable alterations, from various newspapers. The collection includes few not relating to persons and events more or less familiar to the people of the Pacific Coast--to whom the volume may be considered as especially addressed, though, not without a hope that some part of the contents may be found to have sufficient intrinsic interest to commend it to others. In that case, doubtless, commentators will be "raised up" to make exposition of its full meaning, with possibly an added meaning read into it by themselves.
