Medicine, Miracles, and Manifestations is a nonfiction narrative about the surgical career and spiritual quest of neurosurgeon Dr. John L. Turner and his journey into the field of Integral Medicine.

During his career as a board-certified surgeon, Dr. Turner's curiosity drove him to explore nontraditional healing techniques that broadened the scope of recovery for his patients, including energy healing, chanting and meditation (approaches historically found in religious practices), soul travel, and astral projection.

In this fascinating book, you will discover:

* How metaphysical events such as remote viewing, telepathy, consciousness, and life after death are all verifiable manifestations of the way the human brain interfaces with the universal consciousness.

* That consciousness persists after the death of the physical body.

* That our life is carefully planned before birth but there is an element of free will.

* That we can interface with a spiritual world and a collective human unconscious.
