**The Handbook on the Political Economy of War (Elgar Original Reference)** Christopher J. Coyne, Rachel L. Mathers

*The Handbook on the Political Economy of War* highlights and explores important research questions and discusses the core elements of the political economy of war.

By defining political economy and war in the broadest sense, this unique *Handbook* brings together a wide range of interdisciplinary scholars from economics, political science, sociology, and policy studies to address a multitude of important topics. These include an analysis of why wars begin, how wars are waged, what happens following the cessation of war, and various alternatives to conflict. Other sections explore civil war and revolution, the arms trade, political and economic systems, and post-conflict reconstruction and nation building.

Erudite yet accessible, this comprehensive reference work will prove to be an engaging and enlightening read for policymakers, academics, and students of political science, economics, public policy, and sociology.
