Bob Dylan and Leonard Cohen are widely acknowledged as the great pop poets of the 1960s, transforming the popular song into a medium for questioning the personal, social, and political norms of their times. They emerged at a time when the music industry was transforming the revolutionary sound of black music into something bland, homogenous, and fit for mass consumption. For many members of their generation, Dylan and Cohen were able to articulate what they were feeling and could not express: anti-establishment anger, angst, and despondency.

Dylan and Cohen is a fascinating political, psychological and artistic profile of these two iconic writers and performers. With reference to both biographical details and lyrics. David Boucher explores their similarities and differences, tracing the development of religious political, and social themes in their work and the ways in which those ideas engaged a new audience.

A must-read for all serious fans of either Dylan or Cohen, this book will also engage anyone interested in the North America of the 1960s, or more generally in the relationship between music, identity and politics.
