How to Build a Carport You Can Afford: Portable Carport Shelter Garage Plans, Drawings, Illustrated Directions, Parts List and Sources

“I can’t afford a new garage or carport shelter.”

As a Carpenter Contractor, I have heard this complaint many times over the years.

Many people need a carport shelter or garage, but cannot afford to have one built by a contractor for \$30-\$60,000 or more, however, they could get one if it only cost \$500-\$3,000.

In this book, I have given you all the information you will need to make your own Carport or garage for thousands less than you may have thought. I have included step-by-step instructions all illustrated with pictures. I have plans, drawings, parts lists, and sources where to get all you need. Also I provide my contact information so if you need help you can contact me by email or phone.
