## Testing in Scala Daniel Hinojosa

If you build your Scala application through Test-Driven Development, you'll quickly see the advantages of testing before you write production code. This hands-on book shows you how to create tests with ScalaTest and the Specs2—two of the best testing frameworks available—and how to run your tests in the Simple Build Tool (SBT) designed specifically for Scala projects.

By building a sample digital jukebox application, you'll discover how to isolate your tests from large subsystems and networks with mocking code, and how to use the ScalaCheck library for automated specification-based testing. If you're familiar with Scala, Ruby, or Python, this book is for you.

- Get an overview of Test-Driven Development
- Start a simple project with SBT and create tests before you write code
- Dive into SBT's basic commands, interactive mode, packaging, and history
- Use ScalaTest both in the command line and with SBT, and learn how to incorporate JUnit and TestNG
- Work with the Specs2 framework, including Specification styles, matchers DSLs, and Data Tables
- Understand mocking by using Java frameworks EasyMock and Mockito, and the Scala-only framework ScalaMock
- Automate testing by using ScalaCheck to generate fake data

### From reader reviews:

#### **Susan Gagnon:**

This Testing in Scala book is absolutely not ordinary book, you have it then the world is in your hands. The benefit you have by reading this book is information inside this book incredible fresh, you will get details which is getting deeper you actually read a lot of information you will get. This particular Testing in Scala without we understand teach the one who looking at it become critical in thinking and analyzing. Don't possibly be worry Testing in Scala can bring once you are and not make your carrier space or bookshelves' grow to be full because you can have it inside your lovely laptop even cell phone. This Testing in Scala having fine arrangement in word as well as layout, so you will not feel uninterested in reading.

#### **Johnnie Lewis:**

Playing with family within a park, coming to see the sea world or hanging out with pals is thing that usually you may have done when you have spare time, subsequently why you don't try issue that really opposite from that. One activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you have been ride on and with addition info. Even you love Testing in Scala, you can enjoy both. It is excellent combination right, you still would like to miss it? What kind of hang-out type is it? Oh seriously its mind hangout fellas. What? Still don't buy it, oh come on its called reading friends.

#### **John Moore:**

Your reading sixth sense will not betray a person, why because this Testing in Scala reserve written by well-known writer who knows well how to make book which might be understand by anyone who else read the book. Written with good manner for you, still dripping wet every ideas and publishing skill only for eliminate your own hunger then you still doubt Testing in Scala as good book but not only by the cover but also through the content. This is one guide that can break don't evaluate book by its handle, so do you still needing yet another sixth sense to pick this particular!? Oh come on your examining sixth sense already said so why you have to listening to yet another sixth sense.

#### **Tiffany Lyons:**

In this age globalization it is important to someone to get information. The information will make professionals understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of personal references to get information example: internet, magazine, book, and soon. You can view that now, a lot of publisher that will print many kinds of book. The book that recommended to your account is Testing in Scala this e-book consist a lot of the information of the condition of this world now. This particular book was represented how do the world has grown up. The language styles that writer require to explain it is easy to understand. The particular writer made some exploration when he makes this book. Honestly, that is why this book acceptable all of you.
