The Seven Against Thebes

Aeschylus

The Seven Against Thebes Aeschylus

There were many speculative attempts to explain the internal architecture of the Great Pyramid of Giza in the 19th century. Most of them were composed with an eye to Christian dispensational prophecies. Adams, on the other hand, thought that the blueprint for the Great Pyramid was the recently translated Egyptian Book of the Dead, a journey of the soul through the afterlife. He viewed this as an allegory of initiation, a precursor of Masonic rituals. When this book was initially published, it was taken seriously by many scholars and esoteric researchers. However, the lack of scholarly apparatus was a stumbling block for many. In addition, the Great Pyramid was constructed about 2500 BCE, and first versions of the Book of the Dead date to about 1500 BCE: a gap of nearly a thousand years. Although Adams drops hints about high-level Masonic themes in the Pyramid and Book of the Dead, he was not a member of any Masonic group. On the balance, some of Adams' ideas were ahead of his time, particularly his theory that the Egyptians were African in origin, not Asian, as most believed at the time.
