Basic Math, Introductory and Intermediate Algebra Margaret L. Lial, John Hornsby, Terry McGinnis, Stanley A. Salzman, Diana L. Hestwood

The **Lial Series** has helped thousands of students succeed in developmental mathematics by providing the best learning and teaching support to students and instructors. The new **Lial All in One, *Basic Math, Introductory & Intermediate Algebra***, offers everything needed to teach the full developmental math sequence in one flexible course solution, with approachable writing and pedagogy, varied exercise sets, and robust ancillary resources. A tightly integrated MyMathLab course includes the Lial Video Library, and fresh, interactive PowerPoint slides to meet the changing needs of today's students and instructors.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

Note: You are purchasing a standalone product; MyMathLab does not come packaged with this content. MyMathLab is not a self-paced technology and should only be purchased when required by an instructor. If you would like to purchase *both* the physical text and MyMathLab, search for:

9780133976830 / 0133976831 MyMathLab for Lial Basic Math, Introductory and Intermediate Algebra -- Access Card -- PLUS MySlideNotes

Package consists of:

0133931722 / 9780133931723 MySlideNotes for Lial Basic Math, Introductory and Intermediate Algebra

0321757378 / 9780321757371 MyMathLab CourseCompass Integrated Course Sequence -- Standalone

Try to face the book Basic Math, Introductory and Intermediate Algebra as your buddy. It means that it can to get your friend when you experience alone and beside associated with course make you smarter than ever. Yeah, it is very fortunated in your case. The book makes you a lot more confidence because you can know every little thing by the book. So , let me make new experience along with knowledge with this book.

James Robinson:

The book Basic Math, Introductory and Intermediate Algebra can give more knowledge and information about everything you want. Why must we leave a good thing like a book Basic Math, Introductory and Intermediate Algebra? A few of you have a different opinion about publication. But one aim in which book can give many data for us. It is absolutely proper. Right now, try to closer with your book. Knowledge or details that you take for that, you are able to give for each other; you may share all of these. Book Basic Math, Introductory and Intermediate Algebra has simple shape nevertheless, you know: it has great and massive function for you. You can search the enormous world by open up and read a book. So it is very wonderful.

Stephanie Gilley:

Spent a free time for you to be fun activity to try and do! A lot of people spent their down time with their family, or all their friends. Usually they performing activity like watching television, planning to beach, or picnic inside park. They actually doing ditto every week. Do you feel it? Do you wish to something different to fill your current free time/ holiday? May be reading a book can be option to fill your totally free time/ holiday. The first thing that you ask may be what kinds of reserve that you should read. If you want to consider look for book, may be the e-book untitled Basic Math, Introductory and Intermediate Algebra can be very good book to read. May be it could be best activity to you.

John Schreiber:

As a scholar exactly feel bored in order to reading. If their teacher asked them to go to the library as well as to make summary for some publication, they are complained. Just very little students that has reading's internal or real their interest. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that examining is not important, boring as well as can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Basic Math, Introductory and Intermediate Algebra can make you truly

feel more interested to read.
